

JS1.HTML

```
<html>
  <head>
    <title>java script demo</title>
  </head>
  <body>
    <h4>this is a text before javascript</h4>
    <script type="text/javascript">
      document.write("hello from javascript");
    </script>
    <h4>htis is a text after javascript</h4>
  </body>
</html>
```

OUTPUT

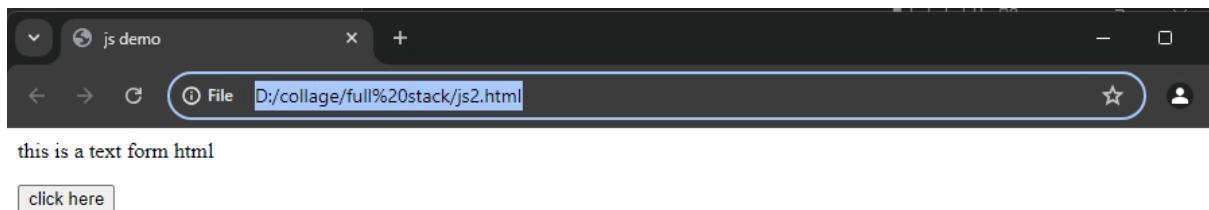

JS2.HTML

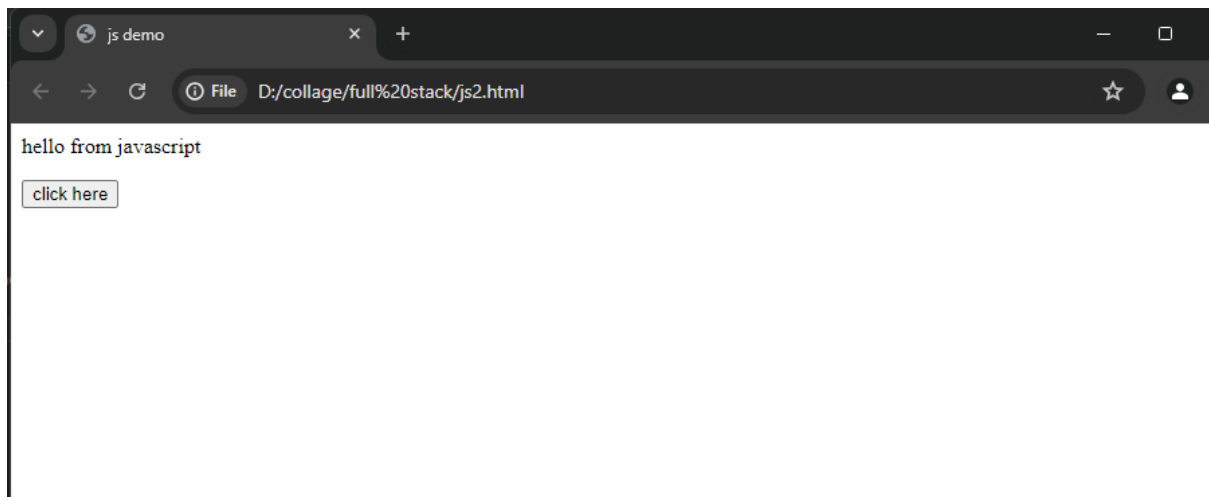

```
<html>
  <head>
    <title>js demo</title>
  </head>
  <body>
    <p id="p1">this is a text form html</p>
    <input
type="button"onclick='document.getElementById("p1").innerHTML="hello from
javascript";'value="click here"/>
  </body>
</html>
```

OUTPUT

Before click here

after click here

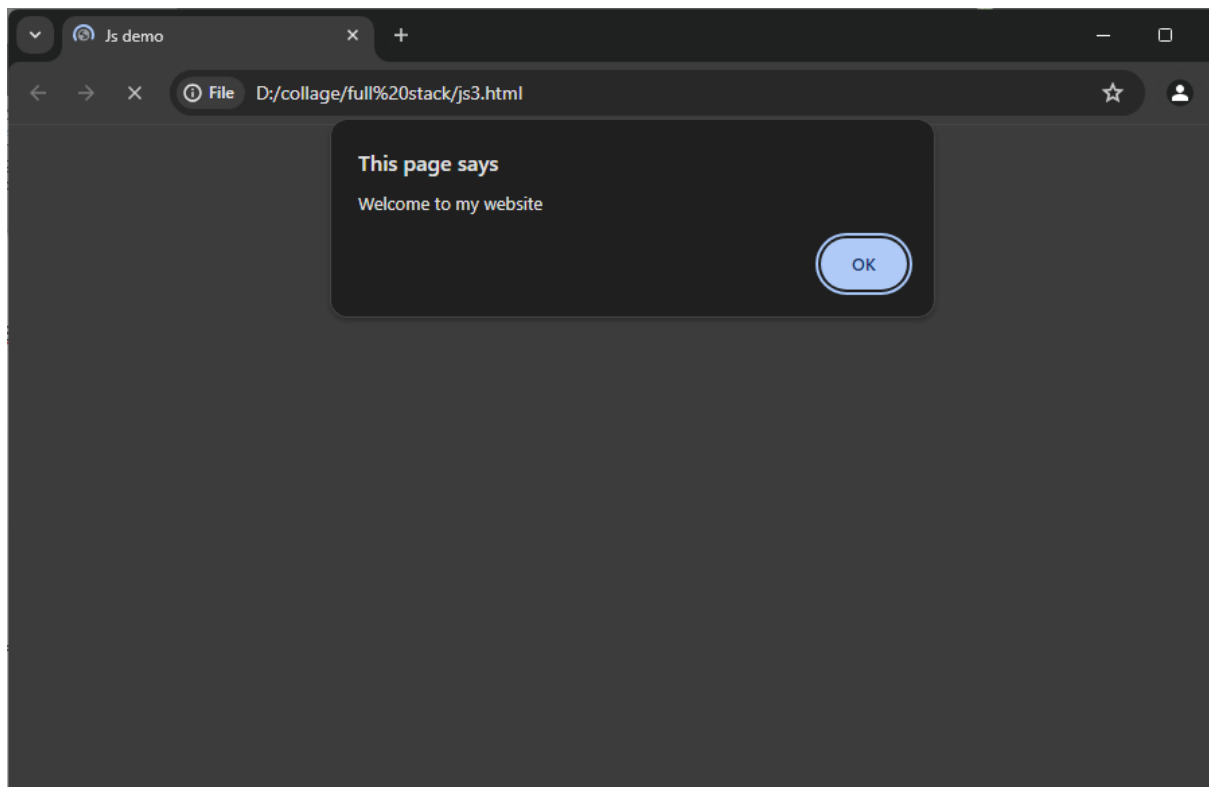

Js3.html

```
<html>
  <head>
    <title>
      Js demo
    </title>
    <script type="text/javascript">
      function greetings()
      {
        alert("Welcome to my website");

      }
      function display()
      {
        document.getElementById("p1").innerHTML="Hello from javascript";

      }
    </script>
  </head>
  <body onload="greetings();">
    <p id="p1">This is a text from HTML</p>
    <input type="button"onclick="display();"value="clickhere"/>
  </body>
</html>
```

Output

Js4.html

[illegible]

```
<input type="button" value="SUB"  
onclick="sub();" />&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;  
<br/>  
<input type="button" value="MUL"  
onclick="mul();" />&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;  
<br/>  
<input type="button" value="DIV" onclick="div();" /><br/>  
Result: <input type="text" id="t3"><br>  
</center>  
</form>  
</body>  
</html>
```

Output

The screenshot shows a web browser window with the title 'javascript Demo'. The address bar contains the file path 'D:/collage/full%20stack/js4.html'. The page content features a heading 'Js Demo Calculator' followed by a horizontal red line. Below the line, there are two input fields for numbers, labeled 'Enter the first number:' and 'Enter the Second number:'. A vertical stack of four buttons labeled 'ADD', 'SUB', 'MUL', and 'DIV' is positioned between the input fields. At the bottom, there is a 'Result:' label and an empty output field.
